

Eighteen horse-thieves been hanged in Texas in two weeks. The state is now hunting others blood-bounds.

The two little girls who recently abducted from Ellingham, by gypsies are now believed to have been murdered by their captors.

President Chapin's vacate sermon at Beloit college, on Friday, the close of his thirty-sixth at the head of that educational institution.

Congressman Reuben W. of the Fifth Illinois district, lies point of death at his home in more, that state. Physicians give no hope of recovery.

The Brooklyn bridge being quite a foot-hill. Hugo Kes wagered \$1,000 against \$500 that will jump from the bridge on the 3d of July and save his life. No wish that he won't jump, and no probability of moun the result.

The new schooner Brunhilde, owned by John S. Phelps, of New York, sailed from New London, Conn., yesterday for a trip to the world. Besides the owner, five members of the class of '88 of Yale will make the trip.

The Society of Friends in town, Pennsylvania, have a treasury, and it is said that the work of fiction can be found in its shelves. But the people of Geneva didn't want it for all that, as 10 volumes were taken out last year, 26,000 people visited the library to read it.

The Oamaru steamship is reported disabled at sea, is being attended by another ship. She left New York June 20, and expected to reach Queenstown less than a week. Among those on board are Roscoe Conkling, S. S. Cox, new minister to Turkey, and ex-Gen. General Brewster.

Lat Sunday night a fire of tramps, forty in number, in the town of Shenandoah, Pa., beat village and violence. Chief of Police, in leading a posse against them, dangerously wounded, and William Miller, a peddler whom they assailed, robbed, was fatally hurt. They finally overpowered and lodged in.

A fire broke out about 10 o'clock Monday night in the lumbermill on each side of the track at Ave. This state, and spread rapidly, coming an immense amount of lumber belonging to Sherburne, Bryant and W. (Pierce, of Milwaukee, and W. C. of Oakbrook, the mill was saved, no loss is estimated at \$300,000; income \$200,000.

When Miss Street, then agent at Chicago, was asked resign some months ago, she was told she could have until the 31st of Dec. to send in her resignation. The time expired yesterday, but it is stated that no further steps will be taken in matter and that it is probable Miss Stet will serve out the remaining year (the term for which she was appointed).

Nearly 20,000,000 eggs are shipped across the Atlantic to the United States from Antwerp and Hamburg, during the summer months of each year. The shipment for this season has ready set in strongly. It is strange that agricultural country like ours, thrives grain and beef so profusely to Europe, should not be able to raise eggs enough for home consumption.

When General Logan was banqueting in Boston on Monday night he said in his speech: "Civil service reform is the child of the republican party; unfortunately it has been put on to nurse with a stranger, and if not done now, it looks sick unto death." No one can find fault with the grammar in that sentence, and everybody knows that there is sober truth in every word he uttered.

The Railroad Gazette's summary of accidents in the United States and Canada during the month of May shows a total of 62 accidents, in which 5,510 persons were killed and 65 hurt, a decrease, as compared with May, 1884, of 14 accidents, 24 killed and 35 injured. The five months of the current year to the end of May show a total of 500 accidents, 107 killed and 885 hurt; an average per month of 118 accidents, 21 killed and 137 injured.

The appointment of A. K. Delaney, to the position of United States attorney for the eastern district of this state, indicates that he and General Briggs have come to an understanding in regard to congressional matters next year. Delaney has been quite troublesome to Briggs for some time, and while the former has not got just what he wanted, he has a pretty good slice of public patronage, and in consideration of this will cease his war upon the general. This is another illustration of the queer manner the democratic party has of working up reforms.

The transition from Liberal to Tory rule in Dublin, Monday, showed a decided change. Earl Spencer left Dublin through streets lined with troops, the police also on guard, and with detectives swarming in all directions. Monday the new Viceroy, Earl of Carnarvon, and Sir William Hart Dyke, the chief secretary, alighted from a railroad train, jumped into a carriage and rode to the castle without a soldier, policeman or detective in sight, and as quietly as any other two gentlemen might have driven through the streets. The Irish are delighted over the change, or will be if it is kept up.

In the case of Mrs. Xenia Dudley, on trial in New York for shooting O'Donovan Rossa, the testimony for the defense

Tuesday afternoon was to the effect that Mrs. Dudley was a sufferer from chronic mania. Mrs. Dudley insisted on going on the witness stand and telling her story to the jury. She claimed that she was not insane, but the jury, after deliberating five minutes, returned a verdict acquitting her on the ground of insanity. The court will decide today whether to commit Mrs. Dudley to the State Lunatic asylum for permit her to return to England to be placed in an institution there.

It is a singular fact that most of the colleges in the United States are teaching their students that free trade is a blessing and that protection is public robbery. Nearly all the text books used on political economy have been written by free traders; and it is an encouraging sign of the times to note that out of the 122 at Yale college this year, forty-four were strong protectionists, against fifty-eight free traders. This is an improvement on previous years, and it speaks well for forty-four who had brains and Americanism enough about them not to be influenced by the free trade theories of Professor Sumner.

Secretary Bayard, in talking upon the coming changes in the consular service, promises that there shall be no more blunders like those committed in making his early appointments. He begs the country's pardon and declares that there shall be no repetition of the cases of Kelley, Neider, Morgan, Jones and several others. If Mr. Bayard shall make that promise good he will confer a favor upon the American people. In the democratic party are men of learning, integrity, and patriotism, and as this is the last chance a democratic administration will have to bestow honors upon them, for some time at least, it should not throw away the opportunity to place them in positions of profit and trust.

The people of Milwaukee are engaged in one enterprise that commands the admiration of the people of Wisconsin. They are about to begin the erection of a Young Men's Christian Association building, which shall cost \$30,000, and by the time this item is read, the entire amount will be raised. Milwaukee has many places that tend to drag young men down to vice mixed with drunkenness, and now it proposes to have a handsome and permanent building dedicated to young men—a place which will afford them that kind of recreation which shall be an incentive to virtue, where manliness can be learned from example. All honor to Milwaukee for this noble enterprise.

It has been reported from Washington that there would be a "clean sweep" after the first of July, as that day begins a new fiscal year; but Postmaster General Vilas denies that he is going to move faster in operating the guillotine on that account. But Colonel Vilas is very uncertain in his present position. He is hardly in condition to act his own will, and in fact it is doubted if that will be much different from the will of his party. Five hundred removals a week is not very slow business and this is what he has done frequently since he went into office. While he pretends to say that he doesn't know of any removals he will make in July, the usual deceits will probably be made.

The trustees of the Grand Avenue Congregational church in Milwaukee refused to let their church be occupied by St. John, for prohibition purposes. The prohibition club wanted to rent it for one night, but as the trustees have never allowed political speeches to be delivered in the church, they refused to allow St. John the privilege of making one of his so-called temperance speeches in it. By name, the lecture is called temperance, but in fact it is a harangue against the republican party. The trustees had no objections to a speech on temperance from a moral point of view, but they objected to having the party of liberty, progress and Christianity slandered by a man like St. John.

The mercantile failures for the six months ending June 30, are reported by R. G. Dun & Co., as 6,004 as against 5,510 for the first six months of 1884, an increase of 494. In liabilities, however, there is a marked diminution, the amount being for the first half of 1885, \$74,000,000 as against \$134,000,000 in the first six months of 1884. In the circular containing these statistics the fact is dwelt upon that an increase in failures of less than 500 among the number of traders reported by the agency—now over 1,000,000—is not surprising, while their diminishing importance as shown by the low aggregate, and the average of the liabilities is commented upon as indicating a more favorable condition of things than existed at this time last year.

On the rail, on a steamboat, aboard a fishing smack, or yachting on the coast, Hostetter's Stomach Bitters will be found a reliable means of averting any ailment to which travelers, mariners and emigrants are peculiarly subjected. Sea sickness, ship doctors, voyagers or sojourners in the tropics, and all about to encounter unaccustomed, an unaccustomed or dangerous climate, should not neglect to avail themselves of this invigorating and well ascertained and long-tried merit. Constipation, biliousness, malarial fevers, indigestion, rheumatism and affections of the bladder and kidneys are among the ailments which it eradicates, and it may be resorted to not only with confidence in its remedial efficacy, but also in its perfect freedom from every objectionable ingredient, since it is derived from the purest and most salutary sources. It counteracts the effects of unwholesome food and water.

Prestley & Evenson distinctly state that Adler's English remedy has and does cure contracted consumption. Ask for circular. An entirely new medicine, guaranteed.

P. W. I. Blood, P. & E.

UTES NOT HOSTILE,

BECAUSE THEY ARE OUT OF AMMUNITION,

But Very Restless on Account of the Recent Cowboy Outrage and Cattlemen's Exclamations—A Massacre of Whites.

DENVER, Colo., July 1.—Reports from the vicinity of the recent Indian trouble in the southwest state that the Utes are not inclined to be hostile; that they have little ammunition, and that in the recent bloodshed cowboys killed two Indians—two bucks and eight squaws and children, while the latter were asleep. The many authorities assert that the difficulties are caused by cattlemen, who wish to drive off the settlers and preserve the land for ranges. Agent Stahelmeier says the Indians were greatly agitated when the dead were found, and were pacified with difficulty. He left the Indians with the guns, but he could not control them, and their present whereabouts are unknown. It is reported that the slaughter party were relatives of Ignacio, chief of the Utes, and he threatens vengeance if the cowboys are not surrendered to the Indians, to be dealt with after their own fashion. Officers at Fort Lusk admit that the situation is critical, and if another Indian is killed war will be inevitable. The Utes of the tribe has reached the White River Utes in Utah, and they are reported to be on their way towards the southern Ute reservation. Two companies of cavalry and two of infantry are in the field to prevent a collision between the cowboys and Indians.

Sixteen Whites Killed. TOMSTOWN, A. T., July 1.—A. J. Hunsbake, a miner, brought news Monday from Frontiers of an engagement between the Indians and whites, last Thursday, thirty miles southwest of Tombstone, in which it is reported that thirty-five Indians and sixteen Americans were killed and several wounded. Thursday further information was received from Tombstone, that the Indians had been routed by Thomas Crocker, from the San Bernardino range, and that the Indians had been engaged between the entire force under Lieut. Davis and the Apaches. Sixteen Indians were killed and fifteen to twenty taken prisoners. The loss to the whites is not given.

Mexicans Heavily Defeated. YUCATAN, A. T., July 1.—It is rumored that the Yucatan Indians have defeated the Mexicans, killing 400, including Gen. Garcia, and wounding Gen. Lozada.

OPENING THE OHIO CAMPAIGN.

Republicans Foregather at Columbus, Ohio

—Pioneer on the Liquor Traffic. COLUMBUS, Ohio, July 1.—Judge Parker and Gen. Kennedy arrived in the city about noon Tuesday, and were welcomed on arrival by a large number of the city. After the reception they were escorted by the Capital City Foregather and Kennedy club, the Business and Logan Club, and the Twenty-fourth regiment, to the east terrace of the capitol, where Gen. John Bantley delivered an address of welcome, which was followed by a speech from Parker and Kennedy. In his speech Parker pledged the Republicans to the overthrow of the liquor traffic and said: "The liquor traffic ought to be taxed, and we propose that it shall be."

At the state central committee's meeting at night the following executive committee was selected: Chairman, A. T. Bushnell, Springfield; secretary, J. K. Brown, Columbus; treasurer, C. B. Firestone, Columbus. Members—George K. Nash, Cincinnati; P. S. Spaul, Cincinnati; Neil, Columbus; F. S. Spaul, Cincinnati; C. L. Maxwell, Xenia; C. L. Kurtz, Athens; C. C. O'Neil, Sumner; and M. A. Hanna, Cleveland.

Five Cases of Drowning. ALGONA, Iowa, July 1.—While Professor Shippy, principal of the public schools, and his family were bathing on the Des Moines river about 2 o'clock p. m. Tuesday, their boat passed over the dam. Mrs. Shippy jumped out with her 6-months-old baby in her arms. Their son jumped out also. Mrs. Shippy and the children sank at once. The professor, who was with the water for some time, hoping to rescue them, but was finally taken out of the water by assistance from the shore. The bodies of Mrs. Shippy and the babe were found about 4 p. m. Professor Shippy was formerly from Bassett, Seneca county, Ohio.

Discussing the "Standard Edition." BOSTON, July 1.—The convention of commissioners of statistics of labor assembled at 11 o'clock Tuesday forenoon to listen to the reading of an address by Edward Atkinson on the topic, "The Standard Edition." Mr. Atkinson said: "Our great fault is a waste of force. We waste in fire, in useless taxation, in food. What is the standard of the average of the people and what does it cost? Half the struggle for life is a more struggle for food."

A discussion ensued upon several lines, which had been brought to the surface, especially the question which agitates the western coast—that of Mongolian immigration.

Stoned by the Wives of Settlers. MOUNT CARROLL, Pa., July 1.—The strike at the Pennsylvania colliery is exciting considerable interest throughout that region. Notwithstanding the mill employees have been idle since Jan. 1, they show no signs of weakening. Monday night a few of the operators who had been induced by the wives of the striking miners, and everything now is a scandal. Surrounding collieries are aiding the strikers, fearing that a failure at the Pennsylvania mine will result in a general reduction of wages throughout the Shamokin valley.

Base Ball. CHICAGO, July 1.—League ball games Tuesday were as follows: At Chicago—Boston 9, Chicago 13; at Buffalo—Philadelphia 4, 10, Buffalo 5; at Detroit—New York 1, Detroit 0. American association games resulted as follows: At Louisville—St. Louis 15, Louisville 5; at Philadelphia—Atlantic 13, Marquette 9; at Baltimore—Brooklyn 11, Baltimore 18; at Pittsburgh—Allegheny 9, Cincinnati 4.

Cut Him Down Fifty Per Cent. CHICAGO, July 1.—Surveyor of Customs Calhoun, in answer to a request for authority to employ seventy-one persons in his department, received a reply from Washington that he would be allowed but forty-one, and that the salaries of these must be diminished. This is in accordance with the action of the late congressional committee on appropriations.

PRELIMINARY. It is said that the Utes are not inclined to be hostile; that they have little ammunition, and that in the recent bloodshed cowboys killed two Indians—two bucks and eight squaws and children, while the latter were asleep.
